Research in Progress Seminars
March 2018 Schedule

March 7
MR Methods for Cerebrovascular Reactivity and Oxygenation Measurements
Deqiang Qiu, PhD
Assistant Professor
Department of Radiology and Imaging Sciences
Emory University School of Medicine

March 14
PET-derived Assessment of Absolute Myocardial Blood Flow and Related Functional Indexes: An Update
Marina Piccinelli, PhD
Assistant Professor
Department of Radiology and Imaging Sciences
Emory University School of Medicine

March 21
Peak Skin Dose Estimations for High Dose Fluoroscopy Guided Interventional Procedures
Nicole Ball, MS
Medical Physics Imaging Resident
Department of Radiology and Imaging Sciences
Emory University School of Medicine

March 28
Quantitative Imaging with CT and the effects of Image Acquisition and Reconstruction Parameters
Michael McNitt-Gray, PhD, DABR
Professor
Department of Radiology
UCLA School of Medicine
