### April 6, 2016  
**Resting State Functional Connectivity: Nonhuman Primate Models**

- **Kaundinya Gopinath, PhD**  
  Assistant Professor  
  Department of Radiology and Imaging Sciences

---

### April 13, 2016  
**Imaging the Hallmarks of Cancer**

- **Umar Mahmood, MD, PhD**  
  Professor  
  Radiology  
  Harvard Medical School  
  Massachusetts General Hospital

---

### April 20, 2016  
**Development of F-18/Tc-99m analogous tracers for PET and gamma renal imaging**

- **Malgorzata Lipowska, PhD**  
  Assistant Professor  
  Department of Radiology and Imaging Sciences

---

### April 27, 2016  
**Neurotensin receptor 1-targeted PET tracers for cancer diagnosis and therapy**

- **Jiyoung Mun, PhD**  
  Associate Professor  
  Department of Radiology and Imaging Sciences
